

IN THE DRAWINGS

The Examiner objected to the duplicate use of reference number 156 in Figure 3 the drawings. To address the Examiner's concern, Applicant submits an amended set of Figures showing corrections in red. Specifically, the "OK" and "CANCEL" buttons are now indicated by the reference numbers 156a and 156b, respectively. Corresponding amendments have also been made in the specification. No new matter has been added.

Applicant requests the Examiner withdraw the objection to the drawings in light of the amendments, and further, requests that the requirement for formal drawings be held in abeyance until a Notice of Allowance is received.
